Commenter	Comment
Kevin Castleberg	How old were they? Hmm?
Nancy Stock	Maybe Amish, who do not have a high vaccination rate in many of their communities. If so, nothing to do with RFK, Jr. While Mr. Powell has every right to dislike any politician we all must be a bit aware of Yellow Journalism.....
Joshua Powell	In July 2021, in the middle of the deadliest pandemic in a century, Robert F. Kennedy Jr. stood on a farm in Lancaster County and told a crowd of about 1,500 people that the government wanted to vaccinate them "because they cannot stand the fact that you are healthy." He offered them a cure for measles: chicken soup and vitamin A.
John Nelson	Joshua Powell Lay off the meth kkkomrade
Joshua Powell	John Nelson you do realize your comment makes no sense right?
John Nelson	Joshua Powell Well since ewe are the one who keeps insisting people should be able to read your mind as to why ewe think some irrelevant comment means something, as ewe keep repeating it like those who are brain boggled by meth abuse..... so ewe keep right on babbling sweety, it only lets everyone know just how bat shit crazy ewe are.
Katie Stowell MacFarlane	Them: “RFK Jr has nothing to do with it!” You: *shows that he did* Them: *harangue of insults*
Ray Shillito	Joshua Powell JFKjnr makes no sense
June AS	Nancy Stock Sure, it can't be the idiots who have access to a vaccine, but not the sense to take advantage.
John Welsh	Nancy Stock speaking of yellow journalism by uneducated opinion and here you are.
Annie Dee	Nancy Stock RFK jr has started this anti vaccine bullshit since 2020 that’s nearly 27 years ago as we get closer to December Anti vaxxers walking around babies at hospital and Ronald McDonald house and he has measles- The news of the deaths comes on the heels of a Pennsylvania hospital saying on Friday it was responding to a potential measles exposure from a visitor in its neonatal intensive care unit. Geisinger Medical Center in Danville, located in northeastern Pennsylvania, said the visitor was present on the hospital's campus from 5 p.m. ET on Friday, Aug. 14, to 6:30 p.m. ET on Monday, Aug. 17, and later tested positive for the virus. The individual reportedly only visited the NICU and Ronald McDonald House in Danville during that timeframe.
Debbie Hill	Nancy Stock overall vaccination rate isn’t much lower than the US population. It isn’t their religion preventing them from vaccination. It’s misinformation, just like anyone else. Our school system has failed us and a 6th grade level of science literacy has people thinking they understand advanced immunology and package inserts. We need to be attacking misinformation - and jailing public officials who create and spread it!
Ray Shillito	Nancy Stock facts? Just gaslighting to support anti-vac quackery is spam
Betsy Terry	Nancy Stock OR MAYBE ALIENS! How do you randomly speculate it Amish?Low vaccination rates are directly linked to misinformation from RFK, Jr.
Cathi King Suter	Nancy Stock Wow.. look at you defending not getting vaccinated. Tell me Hon... when was the last time ANYONE died from the measles?
Tracy Holdstock	Nancy Stock ...and you are why the World think Americans are stupid!
Teri VansEvers Little	Nancy Stock so you are asserting that Amish people deserve to die?

Kevin Yapps	Nothing to do with RFK Jr.? Yeah, because he's only the secretary of the department of health who's gone on record to say vaccines are harmful. Come on, Nancy.
Maple G Bradburn	Nancy Stock fictional
Karlee Meier	Nancy Stock so because it was Amish people it doesn't matter?
Susan Pond	To the 22 "laugh emoji" users, this is by far not a funny matter. These are innocent children who were basically abused by their parents. RFK, Jr. and Donald J tRump are both the biggest jackasses in recent history. But to laugh at the death of anyone, let alone children. Really?
Sarah M Frey-Kammes	Susan Pond obviously noone is laughing at the deaths... they are laughing at the hyperbole of it all.... 2 whole deaths... out of millions...
Alicia Cobb	Susan Pond how are you going to feel when you actually see the proof? Are you still gonna deny it? It's easier to fool somebody than it is to convince them they've been fooled. One day you're going to realize the pharmaceutical companies don't want us to be healthy, It effects their bottom line. they are exempt from the responsibility of vaccine injuries. why would they care what it does to people as long as the brainwashed keep coming back for more? Are we a healthier country? The answer is no.
Terri Blankenshiop	Susan Pond Just stop. I know people injured by the vaccines. Are you going to care about that? The left wishes death on our president non stop so just stop. No one is laughing if children died. They are laughing at your comments.
Maria Keown Ludes	Susan Pond you are spouting facts that aren't any.... You don't know any more details about those two patients than the rest of us, but you're wholeheartedly willing to jump to conclusions without even bothering to ask the basics.....
David Gipson	Susan Pond you are one serious jack ass.
Michelle Hunkins	Susan Pond except they were both in their late 80s, so...
Soni Sunshine	Susan Pond THEY WERE 80 YEARS OLD. Do you know how to look up facts or do you just go off a tangent of bullshit thinking your brain is wired right
Carolyn Eaton	Susan Pond Nope. It appears that they were in their late 80s and that neither died from measles. The press release was carefully worded fear porn
Ann Kjell	Susan Pond this is specially to you. to you. Not "innocent children". You're so far behind.
John Wicklund	Susan Pond oh you deserve millions of laughing faces emojis for this comment. You are definitely on the list to win the Darwin award.
Martin Incze	John Wicklund 3000 measles cases amongst the unvaccinated and 2 dead and you dumb cunts are proud about it.
Brad Ferrier	They weren't children. It was an 87 and an 89 year old man. Both had vaccine exceptions because of presumptive immunity due to them being born before 1957
Cheryl Swires	Susan Pond how do you know they were children? There were 860 to 950 adults over 18 that have contracted measles in 2026, calculated from the public health data provided by the Center for Disease Control and Prevention. They were infants in 2008. I know many people believe Trump and RFK JR are influential but where they in charge then? I thought Bush was president. Do a little research it isn't hard.

Wes Starke	Susan Pond why don't u thank the Biden administration and the democratic party. No telling how many people they let in brought it with them. They were having out breaks in the immigration camps. During the second year of the influx of people.
Annie Dee	Susan Pond they are trolls pandering antivax slop block the laughing emojis
Ferdinand Zu Bentheim	Susan Pond you've earned yourself a personalized laugh emoji
Chad Daniels	Susan Pond they were almost 90 years old .... Lol
Carey Asewicz	Susan Pond They were old, not children. In their late 80's
Dwight Van Ballegooyen	Susan Pond victims prob had enlarged prostates as well though , given the were males in their late 80s..
Sadie Elliott	Where does it say these were children? There are no answers about the health, age or circumstances of these 2. Maybe all the vaccines they throw at people ruined any immune response they ever had. You don't have any idea.
Jimmy Corn	Susan Pond 87 and 89 yr old men....fuck off
Kathleen Parker Handyside	Susan Pond well it was ok to laugh at Charlie Kirks death so you know what kind of society we have now.
Dean Bashore	Susan Pond They were two 87 and 89 year old men.
Todd Lovell	Susan Pond they were in their 80s Susan
Barbara Anne	Susan Pond Trump and RFK arfe NOT abusing children. It is the parents choice whether to vaccinate or NOT. So stop this DemonCrat BS/propaganda/lies now.
Mark Cowley	Susan Pond I feel sorry for the poor people like you who buy the fearmongering without a clue of what's really going on. Yes, its sad two people died. They were in their 80s according to the reports. They didnt die as a direct result of measles. And despite the official narrative that MMR isn't linked to autism, I know two children whose personalities instantly and drastically changed after getting the vaccine and were later diagnosed with it. You believe whatever you like, but those of us with a functional brain don't buy this garbage, we laugh at it.
Greg Swiers	Susan Pond they were 87, and 89, what the heck
Jody Skoczylas-Summers	When did these people choose not to vaccinate? Was it this year just after RFK Jr became an office or was that decision made before he was in office. Because if the decision was made before he was in office, then it has zero to do with him.
Hannah Brand	You can die from vaccine and die from not getting it. Unfortunately it is reality and the cycle of life. But if you enjoy having random stuff injected in you that can fail and you can still get the disease and still die even if you got the vaccine then carry on. Just because you got the shot doesn't mean your problems fade. The shot can fail, your body doesn't stay immune forever not to mention all of the toxic chemicals and ingredients your also getting.
Sue Pellerito	Hannah Brand No one has died from the MMR.
Quevdo Bubu	I'm curious to learn what kind of care they received. With proper medical care Measles is far from a deadly disease.

Iliya Torbica
Do you have any details on the people? NO YOU DONT. To protect the privacy of the patients and their families, the department of health said it will not release any additional details that could lead to the identification of the individuals.
Did they have comorbidities? I would venture to bet a lot of money they were already sick from something else just like Covid hysteria. More manufactured BS.

Tommy Dixon
And we know the reason for increased cases. Open border under democrats allowing unvaccinated people in form multiple countries. Before that, many diseases were pretty much eradicated in this country.

Steve Kohn
#1, we don't have any relevant details on this
#2, they said that none of the infected people received both doses of the vaccine, which means that if they were between doses at the recommended intervals, they counted as "unvaccinated". we need more information before leaping to conclusions. with COVID, death was recorded as a COVID death when it was merely present or suspected of being present.
#3, studies have shown populations who get wild measles, and not the vaccine, are much less likely as adults to develop heart disease or cancer. considering these are the two leading causes of deaths among adults in the US, it would seem that there is an inverse relationship between vaccination rates and heart disease and cancer later in life. it might not be worth it, even if the vaccine is 100% effective.
don't jump to conclusions

Sylvia Weddle Mills
were the deaths in children? likely no or they would have ran with that headline. So, adults. If you do not have documentation that you got your jabs in the 60's, 70's, etc. then you are counted as unvaccinated. State health department is releasing no real information.

Joshua Powell
Sylvia Weddle Mills they didn't release the ages for the sake of privacy. I'm kind of done trying to educate people on vaccination safety and herd immunity. Go get your healthcare out of a fortune cookie for all I care.

Chris Haga
Sylvia Weddle Mills You most certainly are not considered unvaccinated if you don't have documented proof of vaccination. You are considered unknown. That's literally why there's a category called unknown. The age group will be known in a couple of days/weeks when the national statistics are updated.

Sylvia Weddle Mills
Joshua Powell Nice cut and paste. Do you have any input of your own to share or just the talking points?

Soni Sunshine
Sylvia Weddle Mills they were 80.

Jim Warren
Soni Sunshine 89, 87

Annie Dee
Sylvia Weddle Mills
The news of the deaths comes on the heels of a Pennsylvania hospital saying on Friday it was responding to a potential measles exposure from a visitor in its neonatal intensive care unit.
Geisinger Medical Center in Danville, located in northeastern Pennsylvania, said the visitor was present on the hospital's campus from 5 p.m. ET on Friday, Aug. 14, to 6:30 p.m. ET on Monday, Aug. 17, and later tested positive for the virus. The individual reportedly only visited the NICU and Ronald McDonald House in Danville during that timeframe.

Martha Viner
Annie Dee Oh, no!

Maggie Keller
What the poster of this article did not say was that the deaths occurred in Lancaster county Pennsylvania. Lancaster Pennsylvania has some of the largest populations of Amish in the US. They do not vaccinate their children because of religious beliefs. Amish children have the lowest quantity of Autism in the US. It has absolutely nothing to do with the government.

Joshua Powell
Maggie Keller In July 2021, in the middle of the deadliest pandemic in a century, Robert F. Kennedy Jr. stood on a farm in Lancaster County and told a crowd of about 1,500 people that the government wanted to vaccinate them "because they cannot stand the fact that you are healthy." He offered them a cure for measles: chicken soup and vitamin A.

John Nelson
Joshua Powell Which means what again kkkomrade?

Maggie Keller
And this was absolutely true. The Amish didn't go outside their community so we're not at risk. If you check the Amish had very, very, very low COVID rates even though none were vaccinated. So apparently chicken soup and vitamin A worked just fine for them.

Alicia Cobb
Joshua Powell i agree with him. I knew this years before he said anything. Just because it's news to you doesn't mean the rest of us didnt figured it out years ago.

Rita George
Maggie Keller not true, I have Amish living all around me and they have just as many children with developmental and learning disabilities and they had just as many die during Covid, they just died at home not in a hospital.

MJ Woodworth
Maggie Keller
Isolation protected them. As it would against measles. But with a vaccination rate of 25% for measles, the Amish communities in PA are highly vulnerable to a measles outbreak occurring in areas they visit.

Maggie Keller
I have a young lady that left the Amish community 6 months ago living with me. She was the one that told me that the Amish had virtually No cases of COVID. She should know since she lived in the community not just around it.

Maggie Keller
Amish Rates: A notable study examining Amish children in Ohio and Indiana found an autism prevalence of about 1 in 271 (roughly 0.4%).Non-Amish Rates: Broader U.S. estimates for the general population during comparable periods ranged from 1 in 54 to 1 in 91 children.

Maggie Keller
I have a young lady currently living with me that left an Amish community last year. She says they do not get vaccinated because the Amish Elders do not trust the government. They say their children do nott need measles vaccines because measles have been around since they first came into this country. Nothing new.

John Nelson
Maggie Keller Its beyond (e.g. its fucking impossible) hard to test for a non existent virus, with a test (PCR Test) that was 100% inaccurate and didnt use an actual genbank sample of covid 19 to set its test parameters.

John Nelson
Maggie Keller Which study, post it.

Maggie Keller
Hospitals were paid by the number of COVID positive cases they had. So naturally everyone that died had COVID.

Jane Anne
Maggie Keller I don't know about that area but near me, I see the Amish shopping in Walmart and grocery stores. Measles is highly contagious.

Jane Anne
Maggie Keller that would make sense if they didn't leave their community though, right? How would COVID be transmitted within their community if no one left to catch it?

Julie Roffey
Maggie Keller people have to mix with people who have Covid or measles to catch it, they don't mix with the general
Population and majority of people are vaccinated anyway and not spreading th virus

Airk Leidecker
Maggie Keller Sweetheart, it's painfully obvious that you're not intelligent or educated enough to be speaking on such a serious matter.
Please stop.

Maggie Keller
I have a young lady living with me that left the Amish community last year. She said that they are not allowed to get vaccinated because the Amish do not trust science nor the government.

Chris Haga
Maggie Keller There is no strict religious belief that prevents the Amish from getting vaccinated. They tend to not vaccinate because they are skeptical of modern medicine and the government. The Amish have some of the highest rates of severe neurological disorders in the nation.

Maggie Keller
There is no strict rule against vaccination but they don’t. They have a high rate of certain hereditary neurological disorders because they are all descended from a very small group of settlers and do not marry outside of their group.

Chris Haga
Maggie Keller Yet, you think they have low rates of autism? Of course they don't. That guy who can sit there and tell you the intricacies of building a barn for 4 hours straight? No...that guy isn't autistic at all...

Bob Parker
Maggie Keller proof?

Maggie Keller
Amish Rates: A notable study examining Amish children in Ohio and Indiana found an autism prevalence of about 1 in 271 (roughly 0.4%).Non-Amish Rates: Broader U.S. estimates for the general population during comparable periods ranged from 1 in 54 to 1 in 91 children, though overall national tracking has shifted over time.

Levi Rassler
Maggie Keller

Levi Rassler
Maggie Keller and to make sure I'm being fair, here is the result including your data and adding the proper context eliminated in your post.

Chris Haga
Maggie Keller Look at that study that you're citing. Look at the method used to determine whether a child was autistic or not. Two tests. That's a heck of a lot more than children in the general population receive most of the time. And it was also direct testing of children in the Amish community. That's not how the rate is determined in the general population. It's modeled in the general population from a database that only contains 8,613 children of which only 66.4% actually had a test for autism.

David White
Maggie Keller Citation, please

Levi Rassler
David White it's not true. The claim is based on faulty data because Amish and Mennonite usually do not get healthcare screenings or go to healthcare facilities until they absolutely must. A child throwing a tantrum because too many people are in the room and they are overwhelmed will never lead to an Amish person taking that kid in for medical evaluation.

Danielle Marie
Many Amish do vaccinate. Many Amish do have autism. If it’s in the “lowest quantity” it’s more likely from not seeking medical care.

Robin Lee
Maggie Keller well that's a pipe of bullshit.

Maggie Keller
Amish Rates: A notable study examining Amish children in Ohio and Indiana found an autism prevalence of about 1 in 271 (roughly 0.4%).Non-Amish Rates: Broader U.S. estimates for the general population during comparable periods ranged from 1 in 54 to 1 in 91 children, though overall national tracking has shifted over time.

Myka Forrest
Maggie Keller "lowest quantity" compared to what?

Levi Rassler
Maggie Keller

Maggie Keller
Amish Rates: A notable study examining Amish children in Ohio and Indiana found an autism prevalence of about 1 in 271 (roughly 0.4%).Non-Amish Rates: Broader U.S. estimates for the general population during comparable periods ranged from 1 in 54 to 1 in 91 children, though overall national tracking has shifted over time.

John Nelson
Levi Rassler AI generated BS is useless propaganda...

Levi Rassler
John Nelson it quite literally has its sources in the search, and Maggie herself used the same data found in that 'useless BS' so yea. Try again.

John Nelson
Levi Rassler Sorry kkkomrade, meta biased BS isnt sources or credible, do try fapping harder.

Bill Doorley	Maggie Keller - I'm sorry, Maggie, but the Amish do not prohibit vaccination. It's up to the individual whether they get vaccinated or not. Please check your facts before you post.
Maggie Keller	I have a young lady living with me that left the Amish community last year. She said that they are not allowed to get vaccinated because the Amish do not trust science nor the government.
David Graham	Maggie Keller many Amish do vaccinate
MJ Woodworth	Maggie Keller That's incorrect. The church does not ban vaccinations. Leaders leave it up to individual families. During an outbreak in 2014, many chose to get their family vaccinated.
Maggie Keller	I have a young lady living with me that left the Amish community last year. She said that they are not allowed to get vaccinated because the Amish do not trust science nor the government.
Gay Hisert	Maggie Keller one individual does not reflect the entire Amish population
Sharon Granlund	Maggie Keller amish do not test their children for autism that could be why few are diagnose.d.
Maggie Keller	Why should Amish have their children tested for Autism if they don't exhibit any signs of autism?
Michael Fried	Maggie Keller You must be a genius of epidemiology. How did you untangle all the confounding effects from your claim about autism? E.g., the Amish often travel by horse and buggy. Could there be something in their horse poop that protects them from autism?
Maggie Keller	Number one I have a young Amish woman living with me that left the community last year. She said that Autism almost I hear of in their communities. Number two one of my sons is a doctor and they are currently studying why autism rates are less than half in Amish communities than they are in the rest of the country. Number three I have waded through hundreds of peer reports that say the same thing.
Chris John	Maggie Keller stop spreading facts!!! The left hates it
Jay Schneider	Maggie Keller How many Amish parents take their children in for autism diagnosis? I bet the rate of autism among the Nenets people in Siberia is low, also.
Maggie Keller	Why would the Amish take their children to be tested for autism if they aren't showing any signs of autism? Would you take your children to be tested for autism if they weren't showing signs of it.
Kyle Hansen	Fun fact of the day. Did you know that a genetic mutation that causes autism was actually found during an Amish study? Mutation of CNTNAP2 gene. The prevalence of autism in the Amish community is not significantly different than the rest of the population. The difference is that Amish don't seek modern medicine unless it's for something severe, since a lot of autistic children are not severe cases, they go undiagnosed. Also, Amish do get vaccinations, but just at a much lower percentage than the general population. Less conservative groups are more likely to get vaccinated and some of those less conservative Amish have electricity, phones, tractors, and TV's. One more thing. In my experience, when they seek medical care, they are the most compliant patients and respect the medical community.
Sandra Pappas	Maggie Keller Amish don't report having autism, plenty of them have it.
Maple G Bradburn	Maggie Keller fictional
Karlee Meier	Maggie Keller Amish people barely take their kids to the fuckin doctor of course they have lower *recorded* rates of autism. You guys are so fuckin stupid ong.

Dan Jackson	It’s impossible to ignore the fact that pharmaceutical companies are in business to make money. Never try to ignore that. Question the living shit out of them, but be fair and keep an open mind. Then go get more opinions. THEN choose what’s best for you and your family.
Martha Viner	Dan Jackson what is with the demonizing of pharmaceutical companies?? Jealousy from the medical insurance industry who hope vaccination will no longer be required to be covered by them so THEY MAKE A LOT MORE MONEY providing NO medical services to anyone!!!
Martha Viner	Dan Jackson has 0 posts and no friends. He is shilling for the medical Insurance industry that will make millions more money if they convince us all that THEY shouldn’t pay for our children to be vaccinated. BLOCK THE BOT!!
Jorge Vicens	Bruh you are hilarious.
Jennifer Worch	Weird. The coroner from that county says he has had zero people in the county die from measles.
Todd Lovell	These two people were 87/89 years of age.
Michelle Dannan	You folks ripping on RFK for the measles are so uneducated. He has REPEATEDLY spoken on the measles vaccine and has encouraged people to get it. When it comes to criticizing him on this specific vaccine you are completely off base.
David Sanders	Hmmm - yet from 2016-2024 there were ZERO deaths from measles. It’s like herd immunity through vaccination works !
Timothy Michael	Facts? Details? Ages and comorbidities? Is anybody here doing actual research?
Clay Karczewski	u fuckin loser
Richard Allen	STFU
Autonomous Man	Good job RFK jr.
Brad Simpson	Stfu.
John Dukehart	#DarwinAwards
Bruce Heinemann	Hey shit for brains… and people die in car accidents too. Here's the real science by a real board certified doctor and professor of medicine at a major US university. Please just shut the hell up shit for brains. The vaxxes are still available to any shit for brains idiots like you and the other posters on this thread… https://www.facebook.com/reel/2438951923249357
John Bednarek	Blaming the drop in vaccinating rates without explaining the lack of cases in 35 years among the unvaccinated Amish community. Interesting.

Joshua Powell

John Bednarek Measles is wildly contagious. One sick person infects 12 to 18 others in a group with no immunity. To stop it from spreading, you need enough immune people that the average infected person passes it to fewer than one other person. That requires about 95% of the population being immune. Below that line, each case tends to produce more than one new case, so infections grow instead of fizzling out. That 95% figure is the "herd immunity threshold."

But dropping below it doesn't flip an outbreak on instantly. It just shifts the odds. Picture unvaccinated people as dry tinder and an outbreak as a fire. Someone traveling brings in the spark. When coverage is high, the forest is damp and sparks die. As coverage falls, each spark has a better shot at catching, and the fire it starts is bigger. You're not guaranteed an outbreak the moment you slip below 95%, but you've loaded the dice.

Two things make it a slow build. First, susceptible people pile up over time: babies are born, some kids go unvaccinated, and the pool grows year after year. Second, averages hide danger. A state can average a safe 95% while one school or town sits at 70%. Measles ignores the average and rips through that local pocket.

So the threshold is where contagion math tips from self-extinguishing to self-sustaining, and "over time" is the gradual accumulation of susceptible people plus repeated sparks that eventually turn the vulnerability into a real outbreak. That is the Amish community and this is epidemiology.

John Bednarek

Joshua Powell Sadly you're missing the "x" factors. In over 35 years the Amish community has traveled around the country, and to other countries (they are not hermits). By doing this.....within a 35 year period, they have increased their chances of contracting all sorts of contagion. For them to NOT bring something back to the community within that time frame is an unreasonable expectation and an insult to math and logic.

Tape Amz

Joshua Powell contagious. Not deadly. Can also induce natural immunity.

Joshua Powell

Tape Amz the terms are not mutually exclusive and it killed two people in PA and millions over time - ergo deadly.

Brooke Janice

Joshua Powell what was the death rate of measles in 1900? What about 1960...

Tape Amz

Joshua Powell they're not. But one is true. The other, not.

Joshua Powell

I don't know where you get your information. I will say your commitment to ignorance is true.

Joshua Powell

Brooke Janice Hi Brooke, two part answer here. First is that surveillance is tricky, it has improved, but still not perfect. The World Health Organization estimates that before 1980 when vaccination measures really ramped up measles killed over two million people per year. Today, with the herd immunity that vaccines have brought the measles kills about 100k people a year world wide. With defunding to world health organizations, travel and fewer being vaccinated the risk will increase.

Brooke Janice

Joshua Powell it was well documented in the US and other developed nations.

And stats show that the death rate in the US had dropped by over 98% from 1900 to 1960

Joshua Powell

Brooke what do you think caused the drop in infections?

Janis B. Price
Thank you for this excellent explanation! We passed a wonderful vaccine bill here in my state that allows medical exemptions only, to be granted by a licensed MD, for kids to attend public schools. We can boast a 95% vaccine rate. Are there people who don't like it? Sure, but they never offer any evidence that not vaccinating is as safe as vaccinating. That's because there isn't any evidence.
Children deserve to grow up happy and healthy, not hooked up to breathing machines as diseases ravage their tiny bodies. Children's rights should come first, not negligent parents!! Really! What are we doing??!
Exemptions cost children's lives and allow negligent parents to conduct their "experiments" in secret. Exemptions protect parents from the consequences of their actions, a severely damaged or dead child. I ask again: why do anti-vax parents, opposed to vaccines, not hesitate to hospitalize their child when things go sideways, where there's tons more needles and medical procedures?

Martha Viner
John Bednarek The Amish don't report their diseases to public health.

Kevin Lewis
The people who died were in their late 80s, older than the average age of death.

Joshua Powell
Kevin Lewis this is not true. The identities have not been released.

Lisa Galati
Joshua Powell

Lisa Galati
Joshua Powell

Terry Paul Saunders
MADA.....

Josh Multhauf
Any comment now that it's been released they were 87 and 89?

Randy Meekin
They were in their 80s. The vaccine didn't even exist when they were born! They also didn't die from measles. They died with measles, different things. Even their local coroner said it wasn't caused by measles.

Julie Roffey
Randy Meekin and you know this how?

Kim Matthew Bauer
COUNTRY RANKING FOR MEASLES VACCINATION: #142 Mexico 80% measles vaccination rate!
#156 Ethiopia 72% measles vaccination rate
#162 Venezuela 71% measles vaccination rate
#171 Somalia 64% measles vaccination rate
Source: TheGlobalEconomy.com
"Just the facts ma'am, just the facts!"

Brenda Gerard
I read a post by health officials in Pennsylvania that said it is not true!

Linda Grisafi

The Lancaster County Coroner’s Office stated it has zero reported cases where measles was the immediate cause of death, conflicting with the state's initial announcement.Lancaster County Coroner Dr. Stephen Diamantoni clarified that no measles deaths have been handled by his office. He noted the office is investigating the death of an infant who tested positive for measles but passed away due to a ruptured spleen. Local officials, including Lancaster County Commissioner Josh Parsons, noted that deaths strictly caused by communicable diseases must legally be reported to the coroner, and their records do not show anyone dying from measles.According to reports from LancasterOnline, Dr. Diamantoni offered a few potential reasons for why the state's numbers differ from the local coroner's data:Delayed Reporting: The coroner's office may not have received all the local paperwork or medical files from the state or hospitals yet.Out-of-County Treatment: If the severely ill patients were transferred and died at a specialized medical facility outside of Lancaster County, a different county's coroner would handle the death record."With" vs. "From" Measles: The state health department classifies the fatalities as "measles-associated deaths," meaning the individuals had the virus when they died, even if an underlying medical issue or secondary complication was the technical cause of death.

These measles cases are in vaccinated patients from vaccine shedding. This is real, and documented, but not “advertised”.

Frank Attalla

I believe both people were in their late 80’s

Michelle Hintze West

They were 90 yrs old with underlying medical conditions

Chuck Hancock

Dr. Suzanne Humphries, MD:
"There's NO possible way injecting animal matter, live viruses, toxins, formaldehyde & aluminum PROMOTES health!"
"Nothing in a vaccine is biochemically or medically necessary. It does NOT benefit or fortify us."
"You are MORE likely to die from the VACCINE than from the DISEASE, this is true for EVERY single vaccine on the childhood schedule." ~Dr Paul Thomas, MD
“There is no science that shows vaccines cause autism, except in all these government published studies which show vaccines cause autism.”

Jim Dey
Sarah Todd

Two older men in their late 80's who probably had measles as children.

Carolyn Eaton

Important information about the measles press conference today: Today Governor Shapiro, members of Penn Medicine LGH, and members of the PA Department of Health (DOH) held a press conference announcing two “measles-associated deaths” in Lancaster County.
Officials provided virtually no background information about these “measles-associated” deaths. DOH said to “protect the privacy of the individuals and their families, DOH will not release any additional details that could personally identify these individuals and their families,” however, they did release the medical information that the two were unvaccinated.
Thus, they did not release age, background, or comorbidity information, but did release vaccination information.
It is important to know whether these two people died OF measles or WITH measles.
Given this is important information for us to have, and that the public and media have many questions about this, I reached out to the Lancaster County Coroner’s Office for information.
Deaths attributed to a communicable disease, under the law, are required to be reported to the Coroner’s office.
The Coroner’s office indicates that it currently has ZERO reported cases where measles is the immediate cause of death.
They have one case where a person died WITH measles, but not FROM measles. Measles was definitely NOT the cause of death in that case.
Given this information, it appears at least on the surface that incorrect information was provided to the public today. That information set off significant media interest in Lancaster County, both locally and nationally

Terry Swidinsky

Most people are deficient in vitamin A due to our poor diet. That makes people more susceptible to measles.
Those of us born in the 60s don't need the vaccine as we were all exposed to it and we have lifelong immunity.

Annie Dee

Terry Swidinsky that’s all misinformation- Sadly guys like you affect children not old enough to be vaccinated and young kids in Ronald Ncdonald hose
Like this guy…..
The news of the deaths comes on the heels of a Pennsylvania hospital saying on Friday it was responding to a potential measles exposure from a visitor in its neonatal intensive care unit.
Geisinger Medical Center in Danville, located in northeastern Pennsylvania, said the visitor was present on the hospital's campus from 5 p.m. ET on Friday, Aug. 14, to 6:30 p.m. ET on Monday, Aug. 17, and later tested positive for the virus. The individual reportedly only visited the NICU and Ronald McDonald House in Danville during that timeframe.

Terry Swidinsky

Annie Dee a common sense physician…

Anna Walters
Terry Swidinsky Americans are not generally malnourished and most are not vitamin A deficient. This canard has led to children actually ending up in hospital with vitamin A toxicity. The irony.

Terry Swidinsky
Anna Walters a common sense physician...

Martha Viner
Terry Swidinsky Bull crap. “Most people” have very adequate diets !

Terry Swidinsky
Martha Viner Which is why most people are obese.

Blazin Josh
They didn’t die from the measles. They died of other health complications

Maija Skiba Giganti
Blazin Josh Likely - minor detail, huh?

Nicholas Keeton
The blood-brain barrier (BBB) is a semi-permeable membrane that protects the brain from toxins, pathogens, and other harmful substances in the bloodstream. It controls what can cross into brain tissue and is essential for maintaining neurological health. However, the BBB is not a fixed structure—its permeability can vary depending on age, genetics, inflammation, and exposure to environmental stressors.
In infants and toddlers, the BBB is not fully matured. Studies suggest that newborns and young children may have more permeable or thinner barriers, leaving them more susceptible to neurotoxins during critical periods of brain development. Despite this, there is no routine clinical testing to measure BBB permeability in infants, and no standard benchmark exists for what a "normal" barrier should look like in early life. This means that some children could have naturally weaker or more permeable barriers without anyone knowing.
Heavy metals such as mercury, aluminum, and lead are well-established neurotoxins. These substances can damage neurons, disrupt cellular communication, and cause inflammation in brain tissue. Mercury, particularly ethylmercury and methylmercury, has been shown to cross the BBB and accumulate in the brain. Aluminum, found in various sources including adjuvants and infant nutrition products, has been linked to neuroinflammation and mitochondrial dysfunction. Lead, perhaps the most notorious, causes lasting cognitive and behavioral damage, especially when exposure occurs early in life.
If the BBB is underdeveloped or compromised, these heavy metals could penetrate the brain and interfere with early neural development. This could disrupt neurotransmitter systems, trigger chronic inflammation, and

Vaccines save lives

Laurie Lee

Sam Giganti
Good thing you were never really in danger. In the height of endemic measles (1962) the death rate was 0.2 per 100k. Any loss of life is sad on an individual level, but to proclaim this as something devastating unfortunately is nothing but propaganda. Try to survive out there.

Kerry Maree Hiscox	In 1980, 2.6 million people died from measles, and in 1990, 545,000 died due to the disease; by 2014, global vaccination programs had reduced the number of deaths from measles to 73,000. Despite these trends, rates of disease and deaths increased from 2017 to 2019 due to a decrease in immunization.
Gill Finn	Just don't get jabbed
Justin Waltrip	87 and 89 years old, you're probably one of the idiots that thinks that the entire healthy population should be locked down so that some sick people may not die. Or maybe you're just another drug pushing medical industry scumbag that feeds off the suffering of others.
Lawna DK	
Melissa Golobic	
Jessé Beaupré	More people die of the MMR vaccine every year
Andrew Collins	Both 80 years old. CDC recommends that people born before 1957 are naturally immune and are not recommended for boosters! So unvaccinated but considered to have natural immunity
Sylvia Weddle Mills	Andrew Collins The cdc assumes that those who are that old, likely had the measles already. That isnt always the case and with no childhood vaccine record available, they are listed as 'unvaccinated'.
Jarek Mazur DJ-Yarecki	
Greg Swiers	Let's take the age of the people 87 and 89, did they die with the measles or because of the measles, I think healthy people have nothing to fear
Sheila Hirepan Logan	These people did NOT die FROM measles. The report states they were measles RELATED deaths in an 87 and 89 year old. The autopsy does NOT state they died FROM measles.
Julie Roffey	Sheila Hirepan Logan have u seen it
Frank Mellott	They were in their 90s, which means they chose not to be vaccinated year after year going back decades. Simply put, just because YOU are afraid of the disease does not mean EVERYONE ELSE must be vaccinated. What? Is it now “My body” NOT “my choice?” Be intellectually consistent.
Julie Roffey	Frank Mellott gone up from 80’s to 90’s
Frank Mellott	Julie Roffey It doesn't matter, but if it makes you happy let's say they were over the age of 18 - and thus able to make their own vaccinate / no vaccinate design more than once over the years. Satisfied?
Julie Roffey	pedantic? you are telling people to be intellectually consistent, isn’t that pedantic ? and my take on it is, only people who know they are wrong start calling people names
Deanna Larsen	They were two adult 85 and 87 year olds. No vaccine because they had the infection as a child most likely.
Chlamy Gamine	Good money they were vaccinated
Shayne CK	
Scott Simon Sr.	Died WITH measles. Not necessarily FROM. We all learned that distinction during COVID and the following revisions to death counts.
Shawn Andrews	This is what PROPAGANDA looks like..
Beth Keller	Wait… I need clarification, died “with” or died “from”? That makes a difference.
Johnny Yates	How many have died from the vaccine? Like to see both sides of the argument.
Todd Nicoll	If you’re vaccinated, what do you have to worry about?
Allen Britto	
Jesse Rakkar	RFK never said don’t vaccinate.
Anthon van Weers	https://open.substack.com/pub/rwmalonemd/p/first-came-the-measles-deaths-the?r=21shaj&utm_medium=ios
Edward Gutierrez	Actions have consequences

Jake McSwegin	Would love to see your oldest writing about RFK since it's been "years". We're you writing about him suing companies for dumping toxic waste in our rivers or just when he joined the "bad guy team"?
David Muench	RFKJr states: At his press conference today, Pennsylvania Governor Josh Shapiro accused me of promoting conspiracy theories because I told him, during an earlier telephone conversation, that some Americans had religious objections to the MMR vaccine because it contained fetal tissue. “There is no fetal tissue in the MMR,” he told me. This is a segment from a videotaped deposition of Stanley Plotkin, the inventor of the MMR vaccine. Plotkin admits to butchering 76 aborted normally developing fetuses, all over three months old, in just one of the many studies that led to the development of his vaccine. The rubella virus used in MMR-II is grown on the cultured cell line composed of lung tissue from an aborted three-month-old female embryo and listed as “WI-38 human diploid lung fibroblasts” in the ingredients of MMR-II as portions of these cells end up in each vial of MMR II. During Dr. Plotkin’s deposition, Attorney Aaron Siri asked: “Isn’t it true that MMR II contains approximately 150 nanograms cells substrate double-strand DNA and single-strand DNA per dose purposefully fragmented to approximately 215 base pairs in length?” Dr. Plotkin answered: “Yeah, that’s probably correct, yes.” This equals approximately 646 billion pieces of human DNA from an aborted fetal cell line in each vial of MMR-II. In addition to the human DNA, there is also an unspecified amount of human cellular debris in each dose of MMR-II. During our phone conversation, Governor Shapiro also accused me of promoting vaccine misinformation. When I asked him for an example, he was unable to provide one, but this did not deter him from publicly
Nathanael Hainey	They chose to not get the vaccines long before RFK had this position. Just report the facts and let people decide
Nicole Reicks	RFK jr is a hero
Nicole Reicks	Why is Lancaster healthier?
Patricia Packer	Tell me again that measles is "no big deal". That may be true....until it isn't.
David Smith	And clarithromycin...
Niki Lee	Pretty sure they were in their late 80s

Chuck Hancock	If a parent is vaccinating their child, these are just some facts they need to understand. 1. I understand that the pharmaceutical company who made this vaccine has NO liability if it injures or kills my child. 2. If my child is killed or hurt by a vaccine, the public will pay through increased taxes for any damage the vaccine does and in Canada it's very little payment for a dead or injured child. 3. I understand that this vaccine contains neurotoxins such as aluminum that far exceeds "safe levels" deemed by the EPA. 4. I understand that this vaccine contains carcinogenic ingredients. 5. I understand that some vaccines are made from aborted fetal cell lines, of both humans and animals. 6. I understand that getting this vaccine does not ensure that I will be protected from the disease. 7. I understand that my child could get the very disease s/he was vaccinated for and that some vaccines contain the very live virus, the public is told to avoid at all costs. 8. I understand that my child could be a carrier of the disease s/he was vaccinated for and spread it ("shedding") for up to six weeks. 9. I understand that my doctor may get monetarily rewarded for having a high percentage of his/her patients who are fully vaccinated. 10. I understand that if my child is injured by a vaccine, my doctor would have to spend an exorbitant amount of hours filling out paper work in order to report it. 11. I understand that my doctor has no incentive to fill out paperwork for a vaccine injury.
Michelle Gann	How do we eradicate stupid?
Valerie Ferguson	Everyone has a choice. He is not taking that choice away from anyone.
Rick Benchoff	Valerie Ferguson a person’s freedom ends at the tip of their nose. No one has the right to spread contagion to others. The greatest good for the greatest number. No vaccine exemptions except for legitimate medical reasons.
Lee Smith	Valerie Ferguson Children don't have a choice. If their parents listen to the anti-vaccine grifters, and choose to neglect their children and leave them vulnerable to disease, the children have no choice about whether or not they're going to be left vulnerable to those diseases.
Rich Newman	Valerie Ferguson Your “choice” shouldn’t be allowed to endanger others. Fuck off.
Joe Ross	This is false, obviously can't read the statement issued by the Department of Health.
Alan Ewert	Did they die from Measles or with it? Did they have other life threatening illnesses?
Katherine Bell Stankiewicz	Random stuff???
June Fiola	It was 2 old men in their late 80’s….what else was wrong with them?
Jenette Sovilla	You do know that the two people died were men who were almost 90 years old, right?
Clint Williamson	Just do a little research on the people that died. That's all.
Loretta Clinton	Look up the public coroner report for disease deaths there isn't any.
Jimmy Berry	2 men nearly 90 years old died "WITH" the measles not "FROM" measles. Please report the facts and not just fear inducing stories.
Anthon van Weers	They were 80 years old and didn’t die of measles
Jessenia Morales	The fear porn is strong with this one.
Pancho Louie	I wonder why all these diseases are coming back that we haven't had in decades. I'm sure it has nothing to do with the millions of third-world invaders going across our borders. Have you checked? Have all of them been vaxxed?

Tim Booth	Nice try, didn't work
Kathy Oliver	unvaccinated? that is just irresponsible. if you give to others you should be charged with a crime. people know better than this.
Nell Downey	You cannot make these ridiculous assertions. We know nothing about the particulars of these cases. And where are all the reports on vaccine deaths and injuries in mainstream media? Interesting how silent the media is on this. Maybe because it is owned by big pharma.
Heath Goodspeed	I love how everyone making vaccine hesitation a RFK problem. Vaccinations have been on decline for 40 years. Well documented. This is not an RFK issue. It's a people have actually started reading the vaccine inserts and started making their own reasonable choices. "The decline of vaccination rates and the rise of organized hesitancy have occurred in distinct waves throughout history, with major modern skepticism accelerating significantly in the late 1970s and 1980s, and again sharply after 2020."
Gary Anderson	eat a dick josh
Fred Allendorfer	Laugh emojis outnumber likes 3:2 at this point.... What's so funny about another triggered meme poster?
Robert George	
Jim Serafin	do they even have vax records from 90 years ago? How can they make that claim?
Ava Grasini	Is it true that two older sickly men were the ones who died? 87 & 89 yrs old? They may not have had vaccines back then or were they considered unvaccinated because it had been so long since their childhood?
Facundo Gómez	
Neil Foster	People believe all the propaganda. Big pharmas profits are down again I wonder is it because of the safe and effective I plead the fifth
Tomasz Płatek	
BJ Wilbanks	Vaccine Propaganda at it again. Who are these people, how do we know for sure they died from measles, how do we know they were unvaccinated? There is no further info in the article to support these claims. They didn't even say the ages of these people?
Sharon Hemmerich	PER MEDICAL EXAMINER NO DEATHS FROM MEASLES! There I fixed it
Paul Stevens	Explain how RFK jr recommending the Danish schedule (which has measles as a scheduled vaccine) is responsible for Canada having twice Our numbers last year with 8x less population.
Eric Boyer	This is exactly the kind of garbage-in, garbage-out argument that has destroyed trust in public health. Whatever you think of RFK Jr.'s history, **the administration he now runs recommends MMR vaccination for every child.** Two doses are about 97% effective against measles. Meanwhile, CDC data show routine childhood vaccination—including MMR—collapsed during the COVID pandemic and never fully caught up. And perhaps the biggest lesson everyone keeps refusing to learn: treating every vaccine and every public-health recommendation as equally certain and beyond legitimate questioning helped destroy public trust. The measles vaccine has decades of effectiveness and safety data behind it. The public was told to treat a brand-new COVID vaccine with essentially the same level of confidence. Then people wonder why trust collapsed. **Garbage in, garbage out.**

Emma Chapman	No they didn't. They were 89 & 90 years old and died from 'measles related' problems. They did not die from measles. If they had caught the flu, it would have had the same effect.
Rockwell Keever	Can you tell us the age of these two individuals
Cindy Baldwin	Well Joshua Powell the two unvaccinated people that died were elderly in their 80's, not that their deaths don't matter but come on at that age a common cold can be devastating. So that's the rest of the story you know the part that you conveniently left out
Christina Cook	What other illnesses were they suffering from? Is that why they aren't vaccinated? People don't just die from measles, they die from measles because 1) they're malnourished, 2) improper hygiene or 3) they're immnocompromised.
John Nero	How is that his fault? Lol
Jeremy Schroeder	If it was an election year you wouldn't even see this
Jason Smith	Who are these anonymous people? Please tell me lol
Carolyn Lamb	Wake up and do your research before you post. They were 87 years old and 89 allegedly. Funny thing is I stopped listening to the MSM over a decade ago. Mind control and psychological manipulation. They are trying to divide us once again . Stop letting them control you. The ruling group is once again going to try and attack the public with a narrative
Joe Stu	How old were the people who died? In their 80's?
Reed Compton	Were they people who illegally entered the country during the previous administration?
Karen Kennedy	Did they thoughhhhhhhh... you sure it wasn't because they were in their late 80s and early 90s and got sick... like many die from a flu, pneumonia, diabetes, infection, etc....
John Fox	Huh.. interesting
Bonnie Lauterborn	Why is this funny ?
Luka Walker	Nuts how no one coordinates that the influx of third world disease carriers having to do more with the influx of previously dead sicknesses than a tiny minority of anti vaxxers
Kerry Maree Hiscox	SSPE begins insiduously and death usually occurs in 1–3 years (Dyken, 1985, Sussman and Compston, 1994). The disease characteristically progresses through the stages of cerebral dysfunction, motor and convulsive phenomenon, and deterioration in the state of consciousness to a mute, static, comatose state (Dyken, 1985). In a large Lebanese series, 95% of patients died in less than 6 years (Risk et al., 1978). Apart from this classical clinical presentation, a chronic very slowly progressive form, a fulminant form leading to death in weeks, and a stuttering form with remissions and relapses have been observed (Risk and Haddad, 1979, Dyken, 1985).

Kerry Maree Hiscox

Mortality rates do not reflect the true burden of the disease. Survivors of vaccine preventable disease can be maimed for life — think polio and paralysis, mumps and deafness, measles and mental disability, rubella and birth defects. Looking at mortality rates only misses the true burden of the disease. For example, before the introduction of the measles vaccine in the US in the 1960s, there were “only” 400–700 measles deaths a year. However, there were 4,000 cases of measles encephalitis a year (many of which led to neurological complications such as blindness, deafness and mental disability), 150,000 cases of respiratory complications, and 48,000 measles-related hospitalizations a year (which placed a huge financial and emotional burden on families) [1]. Together, these figures added to the motivation to eradicate the disease

Before the introduction of measles vaccine in 1963 and widespread vaccination, major epidemics occurred approximately every two to three years and caused an estimated 2.6 million deaths each year.

An estimated 107 500 people died from measles in 2023 – mostly children under the age of five years, despite the availability of a safe and cost-effective vaccine.

Kerry Maree Hiscox

Roald Dahl on Measles: "Olivia, my eldest daughter, caught measles when she was seven years old. As the illness took its usual course I can remember reading to her often in bed and not feeling particularly alarmed about it. Then one morning, when she was well on the road to recovery, I was sitting on her bed showing her how to fashion little animals out of coloured pipe-cleaners, and when it came to her turn to make one herself, I noticed that her fingers and her mind were not working together and she couldn’t do anything.

'Are you feeling all right?' I asked her.

'I feel all sleepy,' she said.

In an hour, she was unconscious. In twelve hours she was dead.

The measles had turned into a terrible thing called measles encephalitis and there was nothing the doctors could do to save her. That was...in 1962, but even now, if a child with measles happens to develop the same deadly reaction from measles as Olivia did, there would still be nothing the doctors could do to help her. On the other hand, there is today something that parents can do to make sure that this sort of tragedy does not happen to a child of theirs. They can insist that their child is immunised against measles.

...I dedicated two of my books to Olivia, the first was ‘James and the Giant Peach’. That was when she was still alive. The second was ‘The BFG’, dedicated to her memory after she had died from measles. You will see her name at the beginning of each of these books. And I know how happy she would be if only she could know that her death had helped to save a good deal of illness and death among other children."

Roald Dahl, 1986

Kerry Maree Hiscox

A mother who lost her daughter aged just 10 has said her daughter would still be here 'if parents actually gave their kids measles vaccine'
Renae died after it was discovered she had an incredibly rare brain disease that can be caused by contracting measles called subacute sclerosing panencephalitis (SSPE).
She was just five months old when she caught measles, making her too young to have the vaccine.
Her mum Rebecca said: "Renae hadn't had the MMR because she was under 12 months old.
"If there wasn't an outbreak and more kids had their vaccinations, then she wouldn't have got the measles in the first place. Ant it wouldn't have ultimately ended her life."
She added: "It's like a nightmare, it's still hard to believe that's why Renae's not here anymore. Because of having the measles ten years previous. She was poorly for a few days. After that, everything went back to normal - she was fit and healthy."
Now, Rebecca is sharing her message for parents after the UK was stripped of its measles-free status by the World Health Organization following a spike in cases, which included the death of a child, in England in 2024.
#NewsForYou

Kerry Maree Hiscox

Credit to Mum.
"My 6 yr old is currently dying from SSPE. He was on a delayed vaccine schedule due to recurring chest problems and he was just turned 3 when he caught measles, he bounced back from it quite quickly and then in Feb this year he started to become clumsy and slur his words and his handwriting became like a toddler (he had very neat small writing normally) he was in hospital for nearly a month and they run lots of tests on him and then mid March they said he had SSPE, there is no cure. It has hit him hard and he is wheelchair bound, no longer talks or opens his eyes and is fed by a tube.

Kerry Maree Hiscox

SSPE begins insiduously and death usually occurs in 1–3 years (Dyken, 1985, Sussman and Compston, 1994). The disease characteristically progresses through the stages of cerebral dysfunction, motor and convulsive phenomenon, and deterioration in the state of consciousness to a mute, static, comatose state (Dyken, 1985). In a large Lebanese series, 95% of patients died in less than 6 years (Risk et al., 1978). Apart from this classical clinical presentation, a chronic very slowly progressive form, a fulminant form leading to death in weeks, and a stuttering form with remissions and relapses have been observed (Risk and Haddad, 1979, Dyken, 1985).

Edouard David Auguste John Nelson

Detection of measles vaccine RNA following vaccination is not uncommon and may occur up to four weeks post-vaccination, according to a new study from Nationwide Children’s Hospital.
“The frequency at which detection after MMR occurs in this patient population really highlights, in a measles outbreak setting, the need to distinguish wild type versus the vaccine strain in terms of your PCR,” says Matthew Washam, MD, MPH, a chief of Epidemiology and Infection Prevention at Nationwide Children’s and coauthor of the study. Washam MC, Leber AL, Oyeniran SJ, Everhart K, Wang H. Shedding of measles vaccine RNA in children after receiving measles, mumps and rubella vaccination. J Clin Virol. 2024 Aug;173 : 105696 . doi : 10 . 1016 / j . jcv.2024 . 105696 . Epub 2024 May 24.

Cynthia Crask Davis

They were 87 and 89 years old. They probably had that vaccine at some time in their life. Moot point.

Tracy Frenzel	2people die every 20 mins on a slow night in chicago...If these people were unvaccinated how old were they? When would they have skipped vaccination then? Use your brains folks it would have zero to do with any of the current events including RFK or our President. The (un)funny thing is they will NEVER disclose the number of people dying or permanently injured by vaccines yet we know its happening. VAERS exists for a reason and I suggest people look into it. The last administration let millions of dirty, diseased, unvaccinated people from unsanitary conditions walk on in. And now thay are using the short sighted brains of the masses to explain this shit out.
Jacob Webster	Let me guess they were amish being in PA... amish have never been vaxed ever so this has nothing to do with current admin plus the recent measles outbreaks started way b4 trump took office
Tana Chinault	Check your prepositions. They died “with” not “from.”
Tim Carr	This doesn't help their narrative..... The two individuals in Pennsylvania died from measles-associated complications, though state health officials did not specify the exact medical cause of death (such as pneumonia or encephalitis) to protect patient privacy. So it's ok to say it's the measles for patient privacy, but not the actual cause of death.
Mankenju Kurokage Naikōteki	
Rich Harris	
Michael Lewandowski	Rich Harris Wow, so 97% of vaccinated children are dying?
Rich Harris	
David Gunther	They were almost 90
Tiffany Nicole	The fact that they are not releasing the ages of these “victims” show they are exploiting their deaths to further their own agenda. The coroners office has NO information on deaths of communicable diseases for this in Lancaster County. And they are required to be notified.
Gareth Hawker	Two very old men died with measles "associated", not causally.
Chuck Hancock	
Chuck Hancock	
Chuck Hancock	
Chuck Hancock	
Chuck Hancock	
Chuck Hancock	
Chuck Hancock	
Will Jones Jr.	Late 80's with underlying health conditions.....
Breanne Comunale Spring	These people didn’t die FROM measles. They died WITH it. There’s a massive difference https://www.facebook.com/share/p/19SmvwE3go/?mibextid=wwXIfr

Nancy Goodman	Unvaxxed children have far fewer chronic diseases. We need to determine which vaccines, in a developed country, have a beneficial risk/benefit. The “more is better” is harming kids’ immune systems. https://www.ncbi.nlm.nih.gov/pmc/articles/PMC7709050/ https://pmc.ncbi.nlm.nih.gov/articles/PMC7268563/ https://www.scirp.org/journal/paperinformation?paperid=136921 https://www.aninconvenientstudy.com/ https://open.substack.com/pub/drwojakmd/p/unvaccinated-children-are-healthier?r=8yuuy&utm_medium=ios https://ijvtpr.com/index.php/IJVTPR/article/view/125 https://www.lewrockwell.com/2026/01/no_author/the-greatest-health-revolution/ Pediatric cancers are at an all time high, along with autism and other chronic diseases. About time someone started asking why. Piper-Terry contends that by vaccinating away natural measles, we may have removed a key immune-maturity event, trading short-term prevention for elevated risks of chronic diseases and cancers down the line.” https://marcellapiperterry.substack.com/p/measles-and-cancer-measles-can-be Mayo is studying measles virus as a potential cancer therapy. Dr Nash reports that, “M.D. Anderson has been using it to treat multiple myeloma with rather good success…at least last I heard 5 or so yrs ago.” Here’s the package insert for MMR; read section 6. https://www.fda.gov/media/75191/download The word “autism” was replaced with encephalopathy, but the risks are the same
Nancy Goodman	87 & 89 with comorbidities
Andrej Pajewski	#propaganda101
Mayor Spangler	This has nothing to do with RFK. You’re welcome
Jj Pienaar	So, how old are these 2 supposed measles related deaths? Also, how many new Autism cases occured in 2026?
Stephen Dyck	probably old af people
Chris West	
Chris West	
Wim Vdf Vrolijk	How many people died in a car accident? How big is the population in Pennsylvania?
Leigha Reid	
Steve Walker	Both were in their 80's.
Rohan Kingy	Nevermind they were 87 and 89 years of age. Love how most media outlets fail to mention that bit any illness at that age could end their lives with or without a vaccine.
Duane Hobbs	They’re still doing it. https://www.smh.com.au/world/north-america/russian-trolls-twitter-bots-exploit-vaccine-controversy-20180824-p4zzgf.html
Tia Marie	They were like 80 and 90 years old lol
DeAne Pradzinski	People are still responsible for their own health. This is not an administration that will fire you because you will not take a vaccine. I wonder how many millions of people we let in over the border that were not vetted or vaccinated.⁉️
Nat August	People die of colds and flu and other illnesses that the overwhelming majority do not die from. Based on co-morbidities. That being said it is unacceptable to die of a vaccine that was supposed to "protect" you.
Roger Carl	If they are underage the parents need to be held accountable.
Ferdinand Zu Bentheim	$500 for things that didn't happen thanks

Dave Garry

There was one death in Lancaster county WITH measles not FROM according to Lancaster coroner. This is what happens when politicians lie and journalists don't do their jobs. This is from Lancaster Commissioner Josh Parsons:
Important information about the measles press conference today: Today Governor Shapiro, members of Penn Medicine LGH, and members of the PA Department of Health (DOH) held a press conference announcing two “measles-associated deaths” in Lancaster County.
Officials provided virtually no background information about these “measles-associated” deaths. DOH said to “protect the privacy of the individuals and their families, DOH will not release any additional details that could personally identify these individuals and their families,” however, they did release the medical information that the two were unvaccinated.
Thus, they did not release age, background, or comorbidity information, but did release vaccination information.
It is important to know whether these two people died OF measles or WITH measles.
Given this is important information for us to have, and that the public and media have many questions about this, I reached out to the Lancaster County Coroner’s Office for information.
Deaths attributed to a communicable disease, under the law, are required to be reported to the Coroner’s office.
The Coroner’s office indicates that it currently has ZERO reported cases where measles is the immediate cause of death.
They have one case where a person died WITH measles, but not FROM

Brooke Bowman

They were pushing 90 years old, they had measles they didn't die FROM it. This is covid all over again. Man gets in a car accident and dies, tested positive for covid. Media: "he died of covid"

Mike Chamblis

Don’t fall for the fear campaign...what is MEASLES?...a fever, a cough, a rash, runny eyes & runny nose.
-Dr. Sherri Tenpenny
"The measles vaccine came out in 1963. In 1962, the death rate from measles was two in a million.”
"So it was not even deadly BEFORE we had a vaccine."
IF YOU FEAR MEASLES...
You must not know that even in the 60s, before the vaccine, the survival rate was over 99.9%.
You must not know that the MMR is a live virus vaccine & can cause measles.
You must not know that the MMR vaccine is linked to 2,657% MORE DEATHS than measles since 1995.
You must not know that it's a very mild childhood illness for well-nourished children.
You must not know that natural measles infection provides lifelong immunity, unlike the vaccine.
You must not know that there are huge lifelong health benefits to getting measles, including a lower risk of cancer, lower risk of heart disease & stronger immune resilience.
You must not know that the MMR insert lists over 60 serious adverse events, ranging from encephalitis, seizures & death.
You must not know that studies show Vitamin A drastically reduces measles complications-yet public health officials ignore it.

Dave Mrgry

87 and 86 yrs old but sure they totally didn't have pre-existing conditions at all...

Jeremy Vehring

He's living proof of what he says. There are people who spend their whole lives in a lab and never see the effect of the things they discovered.

Brandon Bright	Haha how did RFK influence 2 men in their late 80's to not get vaccinated before he was even born
Michelle Foisy	Natural selection
Shane Gottschall	Who brought them back?
Art Russ	Heavy Amish population in that area
Jacqui Auld	So I assume you know the full details of the two that passed , and their health history Vita and chicken soup sounds perfect to me https://www.facebook.com/share/v/1E8E89JtrK/?mibextid=wwXIfr
Nathan Schuck	Now add the numbers of deaths from the MMR in the VAERS. then get back to me.
Ben Stolen	
Tanya Collins	
Kurt Muhle	One thing is certain....we will all be dead at some point in time!
Reesie Johnson	
Reesie Johnson	
Reesie Johnson	
Reesie Johnson	
Reesie Johnson	
Reesie Johnson	
Reesie Johnson	
Reesie Johnson	
Reesie Johnson	
Reesie Johnson	
Reesie Johnson	
Joseph Gallagher	Two people. How old were they? What co-morbidities did they have? Funny how this information isn't part of the story. It speaks volumes.
Mike Daugherty	Their number came up. Doesn't matter how it happened.
José Bueno	The Seattle Times Most hit by outbreak were vaccinated Massachusetts: CDC study indicates even protected people can spread delta variant
Derek Marland	Sure they do buttercup, isn't that one of the side effects of the bio weapon injection
Soni Sunshine	The two who died? 80 years old. People born pre 1957 are assumed to have acquired immunity and are not offered the booster. Truth matters. Scare tactics don't.
Michael Watkins	
Alex Balea	
Chelcie Jackson	I'm going to have to agree with Hannah Brand here. If you get vaccinated, you die. If you don't get vaccinated, you die. No matter what we all end up choosing burial or cremation. Mind blowing to see all these grown adults throw something so out of proportion. I thought opinions were like a**holes and that everyone had one? So sorry Hannah, but your OPINION is wrong and their OPINIONS must be right since they're all certified doctors. Don't forget, the cancer that came AFTER you got all three COVID vaccinations weren't related to the vaccines at all. Clearly you already had cancer and the vaccine solved the other issues so the cancer could be found.
Mike Swinbourne	

John Petor

The propaganda regime is running strong on this story. Nobody falls for the fear mongering any more...

Rich Wickizer

Don't let them bullshit you into taking the vaccine folks.
"Given this is important information for us to have, and that the public and media have many questions about this, I reached out to the Lancaster County Coroner's Office for information.
Deaths attributed to a communicable disease, under the law, are required to be reported to the Coroner's office.
The Coroner's office indicates that it currently has ZERO reported cases where measles is the immediate cause of death.
They have one case where a person died WITH measles, but not FROM measles. Measles was definitely NOT the cause of death in that case."
https://www.facebook.com/CommissionerJP/posts/pfbid0YFQKau3D6iseE22aEZtSnqErHegWn84tcvv56qnS6AwFffr5xmydnsXU9zixRDfTl

Holly L. Travis

It was 2 men in their late 80's. Not school kids or toddlers. Stop the fear mongering.

Rich Wickizer

And now to prove vaccines cause Autism using the same study you say proves they do not.
You do know one of the main authors of the vaccines don't cause Autism study is being sent to jail for fraud. He stole many meant for Autism research.
BTW my own study says
More Vaccines= More Autism
Less Vaccines = Less Autism
You can easily see the result yourself by simply comparing the autism rate of various countries to the US along with their vaccine schedules.
So unlike your special scientific papers I have actual evidence, not a study based only on Denmark where there are much less vaccines than the US.
I just showed vaccines cause Autism using the study you say shows they do not. Must really suck for the correlation does not equal causation crowd.
They tried to correlate a study from a country with 11 vaccines to a country that has 72 and say vaccines do not cause Autism.
-NOT SCIENTIFIC FROM ANY WAY YOU LOOK AT IT!!!!!!!!
Go right ahead and bring on the scientists to prove me wrong.

Terri Blankenshiop

You are blaming him?? It is measles. Have you ever read what is in that vaccine? I wonder...so 2 were unvaccinated. So it is OK then to ask if all these young people/athletes just falling over are vaccinated? We can't ask that though, right? Quit fear mongering.

Rich Wickizer

A 79 year old man with co morbidities and a premature Baby. Thats why they are trying to withhold info.
BBTW folks those side effects are a legal exemption. They can not ask you to risk harming you child no matter how small the chance.

George Gandjoulov

Misspelled 2 vaccinated!

Stephanie Shepherd Poverelli

I was injured by the MMR vaccine when I was 16, which caused me to do hundreds of hours of research before doing any for my kids. I collapsed a few second after the vaccine. I turned ghost white. And after that, it destroyed my immune system. I went from never getting sick, to constantly being sick, having brain fog, and being tired all the time. After that, we choose to do none, and my 7 and 10 year old are extremely healthy, athletic, and smart, and hardly ever sick. When they do get sick, 99% of the time, I have the knowledge to treat it naturally. Watch all of these before you make your choice.
Vaccine info every parents needs to watch.
(PM me for the links) they won't let me post it here.

Vaccine Ingredients:

Bryan Benson

Two "measles related" death, means nothing without more information. Also, RFK recommends the measles vaccine.

Allen Britto

Stephanie Shepherd Poverelli

DR. PAUL THOMAS: "You are MORE likely to die from the VACCINE than from the DISEASE, this is true for EVERY single vaccine on the childhood schedule."
DR. SUZANNE HUMPHRIES: "If mandates were to STOP, these companies would CRASH. And that's not going to be allowed to happen…"
The statistical analysis of each vaccine…
The risk of death from Polio is 1 in 1 trillion
The risk of death from the Polio vaccine is 1 in 215K
The risk of death from Diphtheria is 1 in 42.5 million
The risk of death from the Diphtheria vaccine 1 in 76K
The risk of death from Tetanus is 1 in 1.5 million
The risk of death from the Tetanus Vaccine is 1 in 76K
The risk of death from Pertussis is 1 in 2.3 million
The risk of death from the Pertussis vaccine is 1 in 76K
The risk of death from Measles is 1 in 106.5 million
The risk of death from the Measles vaccine is 1 in 108K
The risk of death from Mumps is 1 in 40.3 million
The risk of death from the Mumps vaccine is 1 in 108K
The risk of death from Rubella is 1 in 0/negligible
The risk of death from the Rubella vaccine is 1 in 108K
The risk of death from Chickenpox is 1 in 32.3 million
The risk of death from Chickenpox vaccine is 1 in 202K
The risk of death from Hepatitis-A is 1 in 1.6 million
The risk of death from the Hep-A vaccine is 1 in 73K
The risk of death from Hepatitis-B is 1 in 305K
The risk of death from the Hep-B vaccine is 1 in 96K

Jim Williams

There's an invisible bogeyman. Trust me, bro.

Gena Goodson

2 total then… but OMG let's freak out. Omg omg we are all gonna… nothing. What else was wrong with them?

Angel Bussiere	I listened to the hearings. Many die after being vaccinated. You won't hear about it in the news. That 5.6 Billion dollars a year in drug ads buys silence. The population has been brainwashed by their tv flicker rate and people reading a teleprompter.
Deborah Vyletel	Yeah sure!! Lol
Patrick James	The propaganda push is really out there
Pamela Ann	They chose not to vaccinate with the measles vaccine in 1963.
Doug Remington-Coach	Literally the next post I see is this.... https://www.facebook.com/photo/?fbid=1115892327635378&set=a.706002975290984
David Brigner	https://m.youtube.com/watch?v=gK9R7wEvBUk&ra=m
Jeff Gibson	From the same officials who PCR tested car crash victims for Covid-19 and said they died of covid? Until we have the complete story, including medical records we do not know what the cause of death was, period.
Duane Cook	AGE OF THOSE WHO DIED??????????????
David Hymel	
Shakeel Ahmad	thats good...
Scott Weaver	Get rid of the liability shield and maybe someone will listen to you.
John Handley	Here's a contemporary real-life real-world study on vaccine efficacy that RFKjr was involved with. The results are conclusive. This is what happens when anti-vaxxers get going: Immunisation rates were falling in Samoa, and declined rapidly after two babies died in 2018 on Savai'i island following measles, mumps, and rubella (MMR) vaccinations that were wrongly prepared by nurses who were later jailed. They'd mixed the vaccine with anaesthetic liquid instead of water, which stopped the children breathing. A couple of very prominenent anti-vaxxers were active there - RFKjr, and the so-called "Children's Health Defense" group, and Samoa/Australian Tayla Winterstein - who wrongly blamed vaccine on the deaths, creating doubt and confusion about vaccination. Vaccination rates fell rapidly. In October 2019, Samoa declared a measles outbreak. They had 5,700 cases and 83 deaths from measles; approximately 285 cases per 10 000 population. Sixty three of the deaths were children under the age of 5 - a mortality rate of approximately 25 deaths per 10 000 people in this age group. Vaccination rates had been down to around 30%. In the neighbouring countries of Tonga and Fiji, with very similar population profiles, they also had a measles outbreak but their vaccination rates were much higher than Samoa - 90%, still lower than the 95% needed to stop outbreaks. Those countries had lower case rates, and no deaths. The outbreak was stopped and the deaths stopped after the government declared an emergency and systematically went house to house in a national vaccination program. This brought the epidemic to a halt in a matter of a few weeks, proving the safety and efficacy of vaccination
Jaken Scott	um...Bungee jumping death statistics report a 1 in 500,000 chance of a fatality. Measles are at 2 in 350,000,000 I think we are focusing on the wrong danger here
Johnnie Arnold	Piss off with your fear mongering

Brian Bly	Maybe you should do more reading unbiased studies instead of writing bs about RFK who is infinitely more knowledged about vaccines than YOU are Pediatricians earn up to $1M in vaccine bonuses while they fire patients over vaccine protests to protect those bonuses. For a typical pediatric practice treating 1,546 children, achieving 90% vaccination rates could generate bonus payments of $660,915 annually. Some pediatricians reportedly earn over $1 million yearly from these vaccine quotas alone. Watch - https://x.com/lightonliberty/status/2092054754725683283?s=46&t=ZKcRJEk0hJSF1JPE0Hg7xg To hit their 90% vaccination rates many Pediatricians will fire their patients who refuse vaccination to achieve the vax rates necessary to obtain their bonus. Many of them don't care about the health of your babies and their system will try and ruin you if you push back. Bridgett Fertig @LightOnLiberty
Bryan Brady	Usa 90% VACCINATED.... 25 million illegals with zero vaccination..... JFKs fault
Kathryn L Garner	What officials ???
Lisa Beth	they were 89 and 87 years old... stop the fear porn please...
Carl Phillips	This is BS. The CDC has no record of anyone dying of measles in 2026.
David Morrison	What does this have to do with RFK Jr.? More than likely, they were fine until they interacted with an infected illegal alien who crossed the border during the Biden years.
Lisa Lehmkuhl	They were born before the vax. No doubt they had the childhood disease
Robin Lockett	I bet more than that died in car crashes today! Or medical malpractice! What is the point of this story!
Robert J. Schneider	What people? Children? Elderly? Illegals who were unvaccinated? Not enough info here.
Jon Red	another lie by libtards
Loren Wilson	BOTH over 80 years old. Fear porn by BIG PHARMA.
Matthew Enar	two over 80 year old unvaccinated Men died, they lived over 80 years without needing this poison, yet when they die the scum sucking liars want to claim it's because they didn't have a vaccine. these people are beyond evil.
Vicky Chisholm	If you want to live in a country where you are forced to comply with any and everything a govt official decides, move. We have freedom of choice in this country. Vaccine Karen's are free to pin their own babies down for dozens of shots, then enjoy the attention they get when they are sick and disabled. We enjoy our health, mind your own business and sick kids.
Jason Wakem	Complete lie!! Prove it.
Melissa Hooper	So blaming the government for not getting vaccinated is just dumb
Jenaya Carman	I can think of way more evil than someone who is giving people the freedom to choose what's injected into their bodies but go ahead and go off! Lol
Elle Barber	89 and 87 years old. they most likely had measles as children and died from something else but the hospital....in an effort to push vaxxxxines....are lying about the cause of death.....JUST LIKE COVID!!!
Richard Calderwood	Step 1: Import tens of millions of unvaccinated third world invaders and fly them to all corners. Step 2: Blame RFK Jr and Trump. Smoothbrain

Phil Biondo	Laughing at you Joshua. "Officials say"? 2 people die? Unvaccinated you say? Prove it !!! You're spreading misinformation. RFK Jr. knows more about public health in his pinky finger than you would have in 2 life times. If you could live that long.
Kathy Oliver	Not vaccinated? stay in backwards country and infect your own. if from here. seek mental help.
Paul Ellingsen	WOW panic! You now have a 2 in 3,072,666 chance of dying from the measles
Pete Corkey	Maybe you learn details before running your mouth, 84 and 87 year old men So that kind of fuckz over your its dangerous to kids bullshit
Marty Diehl	There have also been measles outbreaks in Canada, Mexico, and Britain. RFK's fault too?
Andrea Baron-Murren	What a load of BS this is. You sir are fear mongering and should be embarrassed
John Christopher McGinley	Retard land on this app it's all propaganda for the retard elites losing all their power don't listen to the morons think for urself. 2 90 year old died make it make sense why they go nuts over this ?
Damien Emley	2 people in the Amish community died. Go talk to their manager
Maddies Teddies	RFK's cure was less reckless than the bleach and ivermectin recommendation of his now master.
Jernau Gurgeh	Nancy Stock Ah you've swallowed the Amish propaganda hook without checking if it's true. Maybe you should...
Bob Blake	Prove it.
Johnny McCallum	Nope. Complications caused by having it...
Steven Morris	Have another jab. Go for it!
Cort Garnier	Notice they made it a point to say what the vaccination status is? This means its all bullshit
Greta Gustafson Wischmann	So these old guys had since 1963 to vaccinate themselves and they selfishly chose not to vaccinate this year because of 'evil' RFK.
Ralph Gubser	That's how you own the libs!
John Spignese	Let's start another fear campaign you fuckin idiot
Mark Jensen	The brain worm died from malnutrition.
Barbara Anne	The reason for increased cases of diseases once eradicated in America is Biden bringing the criminal illegals into the country and not enforcing the immigration laws. Bring back an Ellis Island type facility to do a medical check for every immigrant and the problem will be solved.
Alexandra Hartinger	You sound reckless and evil Josh
Scott Maggard	and the MMR vax killed how many kids over the last few years? Where is the reporting on that?
Vickie Briercheck	Hannah Brand that isn't reality
Danny Dibo Di Bartolo	Hilarious that brainwashed people think they know the vaccination status but they dont know their ages...

Ronn Post	How many vaccinated people died? You dumb fucks continue to embarrass yourself in full public display. Violent, racist, treasonous sociopaths like yourself should be committed to a mental institution. Mockingbird media. What are they paying you?
Mistermister Koppa	When you import 20m brown illegal voters put them on planes and distribute them around country with no records and no vaccination this is what happens. Sending these 3rd world diseased illegals to Amish country was a recipe for disaster. Blaming it on RFK or Trump is hilarious
Russell Leach	Measles has a mortality rate less than chicken pox . In Bangladesh the nation with the most reported cases of measles the death rate is 1% . Measles are easily treated and the anti vaccine movement predates Trump by two decades . Making this about Trump is just nonsense and the ideation of propagandists
Catherine McCormack	Unvaccinated ILLEGALS?
Jay Belle	Or you have your head up your ass, which is much more likely Karen.
Rick Kirschner	This is false. And you jumped on it to support an attack on RFK. The Department of Health used the term "measles-associated" to refer to the deaths, which Press Secretary Neil Ruhland said is applied when "laboratory or epidemiologic evidence of measles is present but the official cause of death is under investigation." Lancaster County's coroner, Dr. Stephen Diamantoni, said Tuesday that "no measles deaths were handled by our office," though the office was investigating the death of an infant who tested positive for measles and died because of a ruptured spleen. The investigation is ongoing, he said.
Michael Falk	Stop embarrassing yourself and your family
AnnMarie Steiner DeFaria	I heard the 2 deaths were very old. And Lancaster is Amish country they do not believe in vaccines due to their religion. Lastly let's thank Biden for having our borders open. None of the illegals were screened for any diseases and now they are all back! Especially TB !!
Mark Pulver	20 million unvaccinated illegals will do that…..
Keith Gould	You are a disgrace @ deaths. but our measles cases percent is much lower than Canada and Mexico and Europe. All of us courtiers had millions of illegals flood our borders. Thery didn't release any information of the deaths. WHY WHY they died with measles not because of measles most likely.
Lee Reiff	Gaslighting Americans is also reckless and evil.
Jason Althouse	There is no proof yet that they died of the measles. They had the measles when they died. The County coroner has not been notified that there was a death caused by measles which is required Under Pennsylvania law. Stop spreading your bullshit
Bill Marchuk	Yes…. So they say… More deception.
Ron Zielinski	Ya probably 2 anti Americam , leftist Democrats …SO WHO CARES , NO LOSS THERE .

Seth Itzkan	Thank you, Joshua. The sickness of RFK2 is unconscionable. I work in one of the areas he claimed to care about, regenerative agriculture, and I saw first hand how his hypocrisy, in conjunction with Trump, just used that term to actually propel the antithesis of regen ag and delegitimization the field I've spent years trying to gain scientific recognition for. His damage to health and regen ag is probably incalculable and may impact us for decades. This is a nightmare. Joshua Powell
Dianne Lindal	According to Pfizer, after taking the covid shot during their 3 month Trials.....1,223 people died.....19,582 people are "still recovering" and 11,351 people did NOT recover. And there are 9 PAGES of miserable illnesses that folks ended up with.
Daron Petit	"Officials say" Trust me bro!
Colleen Patricia Twopointo	When it comes to vaccines, you should do whatever you believe is best for you and your loved ones. Having said that, if a loved one doesn't get a vaccine because of the choices YOU make for them, own it. If a loved one gets sick because YOU ignored science, own it. If a loved one dies because YOU refused to provide an available vaccine to protect them, OWN IT! And, may their death and suffering haunt YOU while your ass is on this planet and may the Devil torture YOU in the afterlife. KARMA
David Seithel	They were 87 and 89 years old. Please stop with the propaganda.
Patty Skwarek Broekstra	Shouldn't have opened the border.
John Kennedy	Don't want to get vax'd - don't. But don't you dare expect any sympathy while youre standing over your loved ones graves - or worse.....your infants grave.
Rob Kennedy	Funny, county coroner says no deaths confirmed to be caused by measles. You get your marching orders emailed or dmed?
Bill LaFever	MAGA Morons are killing their own children.
Jim Warren	2 almost 90 year old men. They don't tell you that
Chesty Puller	These dumbass covid idiots literally had the shit injected into them. Now claiming the unvaccinated is at fault.
Anonymous To You	Number one you're not a writer you're an activist. And if you really want to be mad at the unvaccinated, you should be mad about all the illegals that you assholes letting in from Third World countries. FYI, every year people come down with diseases that they've been vaccinated for regardless of these two being unvaccinated.
Paul Krivitz	When has anyone in the Trump administration said not to get the measels vaccine
Thomas Haemmerle	The Dem party is responsible for the Measles! Thank the dems for open borders letting 20 million unvetted and unvaccinated ILLEGAL ALIENS into our Country!
Thomas Borschel	this
Brian Maddonni	Welcome to Lancaster county where the Amish have always had very low vaccination rates. If you believe for a minute that the Amish are out there following RFK's vaccination guidance then you are a complete fool and should have your internet taken away from you.
Craciun Cristian	Why are they pushing this fear mongering propaganda on you. For PROFIT
Stephanie Stewart	You're a brainwashed idiot. Is it time for your next Covid booster. Run along then and get it RIP.
Tim West	Bullshit, this has been proven to be false they died WITH measles.
Harold P Weener	Were these 'Pennsylvania Residents' LEGAL residents or were they illegals who just happened to make it to PA? My bet would be the latter. As for the scamdemic....RFK was correct.

Michael Lake	Joshua Powell : I guess you are victim of Common Core reasoning skills. RFK Jr has been in his position for about 15 months. MMR is not given until the baby is one year old. So unless all the these cases are in babies 12 - 27 months old this has nothing to do with RFK Jr. You also conveniently turn a blind eye to the 20,000,000 undocumented and an unvaccinated illegals welcomed into the country by the previous administration. This is why you and the rest of the far-left media has zero credibility with those who think. Do better.
Joyce Fontana	Two people in their 80s
Barry Beck	Another fucking digital creator who has the brain power of a squirrel. Sorry squirrels.
Neuby Velonte	Nobody is illegal! Wonders why the 3rd world is bringing 3rd world diseases. LOL
MaryEllen Steltz-Schubert	Manslaughter, it was preventable
Victoria Mar	Overstretching much?
Tony Laird	Bet they were Amish.
Flernie Mcflernin	As usual, blaming the wrong person..... The Biden administration allowed illegals to enter the US from a country (Mexico) that was dealing with a massive measles outbreak. Measles was considered eradicated in the US until very recently... Unscreened and unvaccinated 3rd-world inhabitants bring 3rd-world illnesses..... but go ahead and keep looking in the wrong place.....
Adam Weiland	I'll bet the solution is letting them inject you with chemicals.
Harry Rohanan	Paid psyop guys you can see it by how many advertisers like this one are out there. Annie Dee Important information about the measles press conference today: Today Governor Shapiro, members of Penn Medicine LGH, and members of the PA Department of Health (DOH) held a press conference announcing two “measles-associated deaths” in Lancaster County. Officials provided virtually no background information about these “measles-associated” deaths. DOH said to “protect the privacy of the individuals and their families, DOH will not release any additional details that could personally identify these individuals and their families,” however, they did release the medical information that the two were unvaccinated. Thus, they did not release age, background, or comorbidity information, but did release vaccination information. It is important to know whether these two people died OF measles or WITH measles. Given this is important information for us to have, and that the public and media have many questions about this, I reached out to the Lancaster County Coroner’s Office for information. Deaths attributed to a communicable disease, under the law, are required to be reported to the Coroner’s office. The Coroner’s office indicates that it currently has ZERO reported cases where measles is the immediate cause of death. They have one case where a person died WITH measles, but not FROM measles. Measles was definitely NOT the cause of death in that case. Given this information, it appears at least on the surface that incorrect
Geoff Carter	These "officials" don't have a very good track record of either being knowledgeable or truthful. But the nightly news says they are expert
Dan O'Regan	It ain’t random stuff, that’s just ignorant
Bill Taggart	It's just another hoax, like the fake covid pandemic.
Nate Stoll	AMISH people. This has zero to do with RFK or Trump. And everything to do with how stupid democrats are.
Ben Jay	Thanks Trump!
Phil Repp	186,000 confirmed cases worldwide this year 2600 in the US. This is definitely RFK’s work.

Kapil Ramisur	From the same place that the pop-up clinics were at?
Lisa Bollman	Joshua Powell. Maybe you first should read the commissioners statement from Joshua Parsons. Making yourseld look ignorant and extremely lacking any knowledge. The coroners office was contacted in Lancaster county and there are zero deaths FROM measles. You can Google his exact statement and his response from Joshua Shapiros fear tactics go scare people to vaccinate. The misinformation is disgusting. But then again, anyone will falll for everything they read on social media without first doing their own research. It shows for you.
Ronald Slossar	Walked right over the border...Vote Dem Out!
John Horsewood	This is politics and lies
Lillian Decker	BUT THEY FAIL TO TELL YOU THEY WERE UNDOCUMENTED UNVACCINATED THEREFORE THEY WERE ILLEGAL INVADERS AND I SAY IT'S GOING TO BE A SUNNY DAY TODAY
Yehoishophot Oliver	Without context, this statistic is utterly meaningless. The fact that you think it's at all informative shows your agenda--your pHarma shill agenda.
John Kinna	What the vaccine status of the millions of illegal boarder crossers ?
Bill Kotamanidis	How old were these two people? From my understanding, both were in their late 80's and had various health issues. Liar, Liar , pants on fire. So much for fear porn headlines....
Jill Holly	There has NOT been one reported death from measles in Lancaster county according to Commissioner. It MUST be reported to the coroner by law. It’s all fake and gay yall. Quit fall for the BS
Ujo Neni	Vaccinazi brainwashing everywhere. They are so desperate
Saša Stojić	Vitamin a is official treatment when you get measles. I think you are little stupid
John Worthing	And how were they? Come on , tell the truth
Mary Lindow	Now.... List how many women died from botched abortions.
Stacey Archer Strickland	MSM’s same old playbook: scream “UNVACCINATED DIED FROM MEASLES!” then quietly bury the details that kill the panic. ABC, CNN and other garbage networks blasted the headlines first thing this morning: two people dead in Pennsylvania from measles... both unvaccinated. Full stop. No ages. No context. Just pure fear porn designed to make every parent clutch their kids and run for the nearest needle. Hours later the quiet update drops: 87 and 89-year-old men. That’s the part they didn’t lead with. That’s the part they hoped you wouldn’t notice. Two elderly men. Not toddlers. Not schoolkids. Not the image they wanted burned into your head while they push the next round of mandates and shame campaigns. This is the exact same hot garbage they ran during COVID. Inflate the fear. Hide the comorbidities. Ignore the natural immunity. Demonize anyone who asked questions. Then act shocked when trust in institutions hits the floor. They didn’t “forget” to mention the ages. They left them out on purpose. Because “two elderly men with measles” doesn’t terrify the public the same way “unvaccinated people dying” does. And fear is the product they’re still selling. You were raised by the “I brought you into this world, I can take you out” generation. You don’t scare that easy. Stop letting these people treat you like children who need to be managed with incomplete headlines. Demand the full story every single time. Reject the selective outrage. And never forget how they operated the last time they wanted total control. True Americans are forged in truth, not found in media narratives.
Linda Austin	It was two 80+ yr Olds. RFK is doing a great job.

Paul Triest	Funny all you tarts that don't believe in MMR.proven ..
Carmen Sands	Both in their 80s
Bill Kirkland	pharma grubs dancing on graves of 80 year olds. Go away.
Dawn Smith	Someday you'll know the truth and feel so foolish for posting this.
Robert Lowry	Kill 132 million babies in the name of women's healthcare and none of you bat an eye. Two unvaccinated people die from the measles, and all of you lose your minds...
Paw Levins	No mention of their nationality... previous medical history... shit happened when you invite filth from 3rd world countries.
Derrick Hiebert	You mean they didn't even get the covid shot ,shame on them.
Harry Hazell	This is not new, RFK Jr has a history of pushing dangerous MMR misinformation. Remember Samoa, RFK is responsible for the deaths of 75 CHILDREN.
Corey Cohen	God damn you for laughing.
Sheri Stapleton	God Bless RFK, Jr. for going up against the BIg Pharma cartel that has lied, bribed, manipulated studies, indoctrinated doctors with Rockefeller medicine, and pushed bioweapon shots. Look how freaking sick everyone is. Their poisons don't cure anything and create many other illnesses. Look how sick this country is. It is disgusting and criminal.
William Johnson	Maybe a history of heroin addiction, brain worms, eating road kill, swimming in sewage, admitting to snorting cocaine off of a toilet seat, no scientific or medical training, weren't the ideal qualifications for being in charge of America's healthcare after all.
Laura Mahler	How much money do you get from the CDC or Pharmaceutical companies! People like you disgust me...willing to put a price on people's head for your profit!
Michelle Foisy	Stop spreading your magat lies.
Keith Maddics	Shut up lol
Dawn F Mcnemar	They did not die from measles please learn how to comprehend and read.
Melissa Claire	Worry about yourself.
Joe Don Baker	87 89 year olds you mindless twat
Mike Siemen	87 and 89 years old. STFU. I guarantee. My comment won't be anywhere near the top due to algorithms but wake up ppl. No one dies from this. More die from the vax and have vax injuries. This isn't that hard to see. Please show me the double blind study of the benefits? Anyone?
Michael Clarke	look! another paid for big pharma drug cartel post LOL
Kraig Baldwin	Probably ILLEGALS
Craig Kronfeld	Good job Trump and worm on the brain person who is not a doctor. How many more will die because of you. Maybe an accessory to murder.
Robert Selvam	you conveniently left out the part where the 2 who died are in their 80s. Old people dying is normal, old people dying from diseases is normal. What are you expecting, those old folks to live forever? You're crazy stupid
Darren Offen	....all these sudden medical advisors giving their professional opinions.....
Dug Ryder	It's a cult.

Jeff Watson	MAGA will eventually die off.
Dana Ford	They were 87 & 89 year old men.
Connie Buxton	How OLD Were They????
Tanya Collins	You’re a dipshit. The ages were 87 and 88.
Reesie Johnson	ITS ALL A SCAM !!!!!!!!!!! SO YOU TAKE THE VACCINES ALL VACCINES HAVE THE MrNA IN THEM NOW WAKE UP !!!!!!! THEY CHECK NOONE DIED ITS ALL A SCAM !!!!! FROM BIG PHARMA AND BILL GATES DONT BELIEVE THE BULL !!!!!!!!! YOU ALL FELL FOR COVID BULL SHIT !!!! STOP BEING A SHEEP LAB RATS !!!!! WAKE UP MEASELS DONT KILL VACCINES DO !!!!!! READ AN INSERT !!!!!!
Wes Starke	Oh you mean in 2021. The deadly pandemic of all time. That was at the same time our leadership the Democratic party was letting people walk through the doors and not checking for health or climate background. They were just clicking the clicker for votes. And they were having measle outbreaks in the immigration camps. So the measles swarming us thank the Dems and the ones who came here
Christion Ortiz	More ppl died from a car crash as we read any of this garbage article
Reesie Johnson	ITS ALL A SCAM !!!!!!!!!!! SO YOU TAKE THE VACCINES ALL VACCINES HAVE THE MrNA IN THEM NOW WAKE UP !!!!!!! THEY CHECK NOONE DIED ITS ALL A SCAM !!!!! FROM BIG PHARMA AND BILL GATES DONT BELIEVE THE BULL !!!!!!!!! YOU ALL FELL FOR COVID BULL SHIT !!!! STOP BEING A SHEEP LAB RATS !!!!! WAKE UP MEASELS DONT KILL VACCINES DO !!!!!! READ AN INSERT !!!!!!
Laura Wins	Mockingbird Media. The lies continue but from localized bullshit sources. It’s all over my feed. Stop lying to the public.
Dennis Bresenhan	Why listen to science when you have worm brain???
Tim R. Sattler	Same old idiotic nonsense, making excuses about people dying, oh they were old, oh they were sick with something else, bottom line they wouldnt' have died if they were vaccinated, doesn't matter how old or how sick they were they still deserved to live.
Tammy Lovelace	Evil.. reckless.. whatever.. do you want to know why he talks the way he does? It's from a vaccine he got and it hurt him.. so.. he is trying to educate people and try and Ban most vaccines... you should listen to him.. if not.. then i hope you have life insurance
TJ Mickel	In Amish country.
Edward Christian	And the next 2 Darwin awards to go….....
Billy Wilson	Who the fuck cares
Ravi Kulasekere	I hope you got paid for this bullshit fearmongering
Terry Comeau	Co morbidities. Shut up nazi whore
Pennee Teeter Tschorke	89 and 87 yr old men?
Jeremy Church	Two men over 90 years old.
Dennis Buller	It’s almost like someone let in Millions of Unvaccinated people through the southern border and then bussed/flew them all over. Who knew? But it’s all RFK’s fault. How many cases does Mexico have? 13,408….
Jeff Lewko	Sure, failed high school biology huh?
Michael Watkins	Deadliest Outbreak Since When... This Is From The CDC... 3 People Have Died Since 2020 And That Was Last Year...
Dia Diam	From the fake news media . Fear porn much
Katie MC	Oh now you guys care about the unvaccinated? you’re always wishing them death How old were they?

Jimmy Mesler	Pureblood parents= Pure DEAD kids!!!
David Lloyd	DR BEN PLAYED
Andrew Johnston	An 87 yr old man and an 89 yr old man....
Angel Zimmerman	2 men in their 80s. Give it a break.
Luke Kennedy	Who were the people that died? They haven't said a single thing about them.
Gerry Goodendorf	Nobody is stopping anyone from getting vaccinated, nimrod....
Judas Webb	During covid, some guy here was killed in a motorbike accident. They tested his corpse and found lingering evidence he'd had covid at some point. They marked his death down as another covid casualty (the nurse/doctor was forced). This happened all across the country. Your credibility is fucking GONE. Push your poison somewhere else you fiends.
Robert DeBovis	who believes this horse shit., . I don't. hr5736 fake news
Maria Keown Ludes	Rage baiting headline....
Patrick Whiting	Complete bullshit!
Bo Leisenring	Easy way this doesn't happen again, make the vaccine mandatory for anyone over the age of 80 or they are put to death immediately. Oh...so Trump and RFK were running things for 80 plus years? Razor sharp journalism for sure.
Allen Mersereau	It's impossible to talk to fucking assholes like this. They're trying to blame the people for what the medical field and the pharma corporations did. A sound 'go fuck yourself' is all these assholes deserve.
Paul Doherty	Or like other measles "deaths " its a hoax
Allen Mersereau	Go fuck yourself.
Becky Gary	Why don't you look at and publish how many kids are catastrophically injured and die from vaccines? That's a real eye opener!
Daniella Viggiano	So insanely dumb. Wow. Just wow.
Nick Fas	Its a lie. Publish the proof.
Bruce Landers	No he championed that before his new position. Nuisance lawsuits to get a settlement .
Donna Erickson	Moms across America treated all the baby boomers successfully mostly at home for measles BEFORE the vaccine.... and doctors nowadays can't even successfully treat a few cases of what was once considered a mild, temporary illness? The Islamocrats are gearing up to sabotage Trump, religious freedom and the mid-terms! Watch and see.
Jason Mcewen	Your a fuking
Kathryn Thelen	Says the ppl that took medical advice from a computer nerd.
Charles Wilkins	The more you know...
Susan Thoren	Samoa experienced a deadly measles outbreak in 2019 that resulted in 83 deaths, mostly young children, following a severe drop in vaccination rates linked to anti-vaccine misinformation from Robert F. Kennedy Jr. and his organization.
Deb West	He is an idiot. Vitamin A? NO ONE should be taking Vitamin A unless they are under the supervision of a doctor. It is toxic. This is what happens when a lawyer runs a health department.
Jeremy Miers	they were 87 and 89. it's just the covid scam again
Abe Madrid	Same propaganda as during Covid.
Jeannie Bowers	Kids in TX were hospitalized in serious condition with Vitamin A toxicity from their parent's blind-lemming cod liver oil overdosage.
John Nelson	Well since the measles is killing people freaks lied about those little girls dying from measles in Texas in 2025, we have a real hard time believing the fear mongers on this as their track record for lying is unparalleled.
Jenny Zion	PROPAGANDA ALERT

William D Tipton	keep this deranged leftist trash shit off my feed, mongrel
Susan Godorov	Guess he wants to thin the herd
Jerry Ewing	Didn't have this before the open border the dumacrats caused.
David Tacoma	Maybe we shouldn't have let millions of unvaccinated people into this country illegally.
Lynn Goodine	Fantastic news. Play stupid games....
Bill Venable	So two people lived and died the way they wanted instead of the way you wanted and that makes you mad? They only killed themselves. Why do you care? None of your business. If vaccines work then get one and stop trying to control other people's bodies
Lawrence Stowe	Lack of critical thinking as a voter means your political common sense is simply parroting Government propaganda. That is every Democrat politician I know. Just remember this about Pritzker and Fauci and then decide who mandated death and injury on your friends and family Definitely talk to your AG about putting Dr. Fauci in jail and then form a class action suit against the CDC, FDA, and NIH just like civilians sued the tobacco industry. To all Patriots, try to send Bob Fioretti a message from "We the People" Illinois State Citizens. Prosecute Dr. Fauci for his criminal acts in Illinois. Help make this message go viral on Facebook. Dr. Fauci is not out of reach of a new AG. Once Fauci determined the death rate associated with the Vaccines was too high to be on the market, as stated in his diaries, he had the medical ethics, moral, and legal obligation to pull the Emergency Use Authorization of the vaccines. He did not. At a minimum he is guilty of manslaughter on a scale that is hard to fathom, unless it was intentional and then it becomes a crime against humanity. He may have also been a cog in Biological Warfare and traitor to his country and to the President of the United States. In all cases Bob Fioretti will have every right to open an investigation of all aspects of Dr. Fauci and his relations to Governor Pritzker. His Presidential Pardon means nothing in an Illinois State Investigation. Illinois Compiled Statutes 720 5/8 - 1: Criminal Solicitation to Coerce the masses to get vaccinated with a toxic mixture of chemical ingredients that had not been tested for safety and efficacy. Dr. Fauci knowingly solicited Governor JB Pritzker, Mayor Lori Lightfoot and Cook County, plus the
BethAnn Perry	Let's see the death certificates.
Tammie N Rick Marshall	Wake up call? Biden allowed 20 million unvaccinated people in the country. What did tgey expect to happen?
